blue  pact

Blue Impact unites France Elévateur, RUTHMANN, Versalift, and MOVEX to offer the best selection of electric and hybrid aerial work platforms. We are redefining industry standards by introducing the future of elevated performance through innovation.

Powered by cutting-edge technology, our electric platforms are designed to meet the evolving needs of modern industries. The Blue Impact campaign underscores our commitment to leading the future with advanced technology, delivering an exceptional experience and unmatched performance.

We recognise the industries' demand for reliable and efficient equipment, and we are dedicated to exceeding those expectations. Trust us to provide the optimal solutions for your business with our fully electric platforms.

Join us in shaping  
the future of elevated  
performance - together,  
we can reach  
new heights.

## What does blue impact mean ?

In recent years, innovative technology has increasingly paved the way for fully electric lifts. We believe this wave of innovation will transform our industry, driving solutions that incorporate the latest technology while addressing the environmental challenges of our time.

Blue Impact  
embraces all of this.

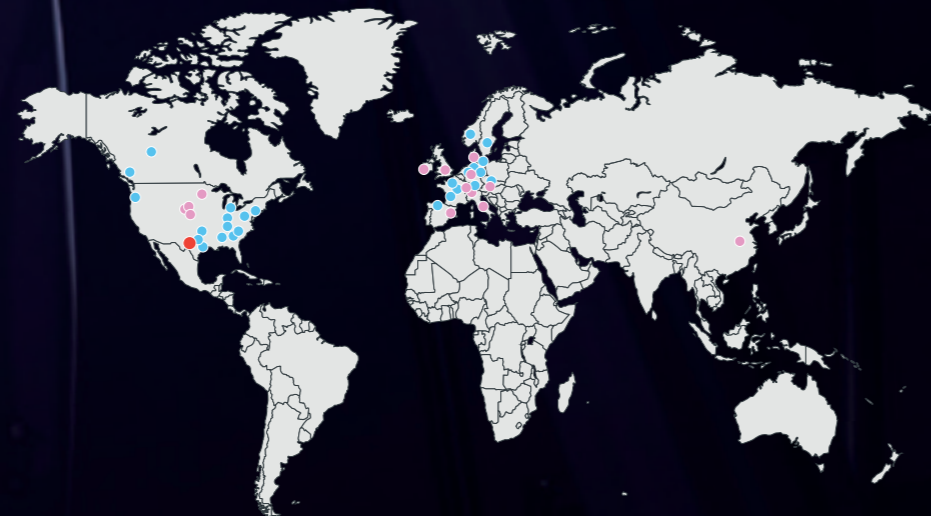

## A global group, brands close to you

Time Manufacturing, a leading manufacturer of aerial lifts, proudly includes France Elévateur, Versalift, RUTHMANN, and MOVEX in Europe, along with Brand FX and Aspen Aerials in the Americas. With a proven track record of high-quality and innovative products, we leverage our extensive engineering expertise to deliver highly customised equipment for various industries. Our global manufacturing capabilities are supported by a robust network of distribution and upfitting facilities across the Americas, Europe, and Asia.

Founded in 1984 near Nancy, France Elévateur was the first French manufacturer of aerial work platforms and offers customers customised machines specifically designed for their business, including industries such as public lighting, roofers, rental companies, railway networks, live works, telecom networks and more.

France Elévateur provides an integrated network of 14 after-sales service agencies throughout France, ensuring a high level of responsiveness and specialist maintenance.

Versalift manufactures a variety of cutting-edge aerial lift solutions, with support, manufacturing and sales operations in multiple European locations including Denmark, the United Kingdom, Ireland, Sweden, and Norway.

As a market-leader in innovation and reliability, Versalift offers equipment tailored to the unique needs of various industries, including rental, telecommunications, utilities, street lighting, and more.

With a large distributor network and after-sales service centres worldwide, Versalift is committed to keeping you safe whilst maximising your productivity.

RUTHMANN Holdings GmbH is a leading manufacturer of aerial work platforms globally. Brands STEIGER®, ECOLINE and BLUELIFT are known worldwide for their innovation and quality. With a focus on cost-effective solutions and the highest safety standards, RUTHMANN offers comprehensive services throughout the entire product lifecycle, from development to after-sales support.

By combining expertise and experience, RUTHMANN has earned a reputation for exceptional quality, technology, and reliability. Guided by a customer-oriented approach, RUTHMANN ensures performance and reliability, driving dynamic company growth and the utmost customer satisfaction.

MOVEX, a company with a 70-year legacy, began its journey in machine repair before evolving into a manufacturer of machinery.

Renowned for hydraulic telescopic truck cranes and later, self-propelled cranes, MOVEX has become a leader in Spain's lifting and handling equipment industry. Today, MOVEX offers a diverse range of products, including aerial work platforms tailored for various industries such as construction, infrastructure maintenance, power line installation, industrial maintenance and more.

blue impact

ELECTRIC POWER  
ELEVATED  
PERFORMANCE

An abstract graphic on a dark blue background. It features a solid dark blue circle in the upper left quadrant. A thick, lighter blue wavy line starts below the circle, curves downwards and to the right, then rises and wiggles across the middle of the frame.
